

HEAT TRANSFER TRAINING SET

Heat Transfer Training Set is designed to support calculations with practical applications. The set is manufactured in accordance with the curriculums of universities, technical high schools and all institutions providing technical education. The content of the training set is suitable for both advanced and basic technical education. Heat transfer and temperature values at different points can be monitored on the touch screen. The set contains various measuring devices and it is designed according to regulations, with electrical and mechanical risks in mind. Platform of the training set is made of durable materials.

TRAINING SET**TRAINING SET EQUIPMENT**

- Control touch screen
- Digital ammeter
- Digital voltmeter
- Emergency stop button
- Circuit breaker
- Signal light
- Durable metal platform
- Circulation pump
- Resistor
- Heating and circulation system
- Heating sensors
